## Features and Benefits

### Features and Benefits

Feature	Benefit
Simulation Learning is a blended learning course that combines an online course with an in-person skill session.	Blended learning requires less in class time, and allows learners to take the online portion where and when it is most convenient for them.
The online course gives participants an immersive, interactive experience in which to learn about and practice responding to real-world emergencies.	Engaging, interactive online course that can be taken at a time convenient for participants before attending the in-person skill session.
